

Tough Toys for Tough Play™

Thank you for your EquiSpirit purchase.

Your four-legged friends will enjoy playing with the ball as much as you enjoy watching them.

This 40" or 25" EquiSpirit Horse ball is great for free play or mounted games. Featuring a durable ABS bladder, 100% double knit polyester cover, plug, instructions, and a 30-day warranty against manufacturer's defects. EquiSpirit Balls can give your horse years of play.

INSTRUCTIONS

- 1. Inflate immediately upon purchase.**
- 2. Unfold the bladder until flat.** Find the plug and position the bladder with the plug facing to the right or left.
- 3. Roll the bladder up from the bottom to the top just like a sleeping bag.** Roll the bladder as tightly as possible. The bladder should now be oblong in shape.
- 4. Insert into the covering with the end with the plug going in last.** Twist the bladder a little and it should slide into the cover.
- 5. Remove the plug to inflate the bladder.**
- 6. Use a double-action hand pump to inflate. You may also use an air compressor or gas station tire inflator.** If you are using an automatic method of inflation, blow up the ball until it gets firm, let it set for 30 seconds, and then repeat until the ball is completely inflated.

7. NOTE: The 40" bladder will become tight at 24"-28" and the 25" bladder will become tight at 13"-15"; **KEEP inflating the ball until the cover is smooth with no wrinkles.** When properly inflated, cover should be taut and unable to be pinched with fingers.

8. Replace the plug and secure the velcro.

9. Let sit for 24 hours.

INFLATION WARNING

Your EquiSpirit Bladder MUST be inflated tight to the cover. Improper inflation may void 30-day warranty.

We HIGHLY recommend taking a photo of your ball upon initial inflation.

WARNINGS

- 1. Do not over-inflate or under-inflate the ball.**
- 2. Keep away from heat or open flame.**
- 3. Avoid contact with sharp objects.**
- 4. Be safe! Horses can get very excited when playing with their ball.**
- 5. Supervision is recommended.**
- 6. Some horses may be timid of the ball at first. Take your time properly introducing him/her to it.**

STORAGE

1. Do not store in extreme temperatures.
2. When not in use, the ball should be stored a room temperature.
3. Store the ball fully or partially inflated if possible. If that is not possible, store it flat.

WASHING INSTRUCTIONS

1. To wash the outer cover, deflate the inner bladder completely and remove the bladder from the outer cover.
2. Turn cover inside out and wash in cold water using laundry detergent.
3. DO NOT use bleach.
4. Dry with LOW HEAT or drip dry.
5. After the cover is dry, insert the bladder back into the cover being careful to position the inflation hole near the cover opening. Re-inflate ball.

FIXATION WITH THE FLAP

Some horses may get fixated with the Velcro flap and can possibly tear it off. This is NOT covered by the defect warranty. If this is the case with your horse, use a strong essential oil or "Bitter Apple" product on the flap to deter or supervise them during play.
